TARRANT'S COMPOUND EXTRACTS (18)

TARRANT'S COMPOUND EXTRACT OF CUBERS AND COPAIDA.

Sanctioned by appular opinion and the high authority of the most distinguished of the medical faculty, it ofters to the afficient a remedy whose success has in every instance sulproteed to deserved repetation. Being convenient and agreeable in its use, experience has proved that it returns in every climate its desirable and ruly valuable sharacter. It is in the form of a main, is tasteless, and does not inspair the digestion. It is prepared with the greatest possible care, upon well tasted principles. To persons following the sex, or going long voyagesing any other—next and portable in its form, speedly and efficient in its interesting preparation possesses specifies for surpass, ing any other—next and portable in its form, speedly and efficient in its is form appeals and efficient in its preparation, uncleaseful both in the carliest and worst stages of the externet diseases, whilst the usual and nuseous are and unpleasant oduc to copails is wholly avoided in this preparation.

Freparad and sold wholesale and retail, by JOHN A. TARRANT, successor to James Turrent, 28 Greenwich street, corner of Warren, New York; and for sale by the principal Druggists in the United States, British Provinces, West Indioz, and South America.

THORN'S Compound Extract of Copallis THORN'S Compound Extract of Copailsa and Sursaparilla possesses a few advantages not enjoyed by any other medicine for the cure of assual diseases; and which must, with an enlightened public, render it assuredly highly popular, and a desideratum long rought for in the medical world. It needs no confinement or change of diot. In its approved form, that of a pasta, it is entirely tarteless, and causes no unphrasmant sensition to the patient.

It has required the uturnst fame in almost every part of Europe; it has been examined, approved of, and senctioned by the faculty of medicine, and recommended by the most eminent of the profession. Prepared by J. B. THORN, Chemist, Lourdon, and for onle whilesale and rotall, by J. A. TARRANT, sole agent for the United States, 278 Greenwich street, New York

EL CRANSTON & NORMAL

144 THAMES STREET. THURSDAY MORNING, NOV. 1, 1865

The following notice of a forthcominmarriage in high life in England is worth of record from the evidence it shows of real heroism in the lady, Sir Thomas being effectually crippled for life :-

"The gallant Sir Thomas Trowbridge is about to lead to the altar Miss Louisa Gurney, Asughter of Daniel Gurney, Esq., of Norwich, and sister of the Hon. Mrs. W. Cooper. Seldom has that proudest meed of homoge which beauty loves to pay to valor been conferred on a mure worthy recipient. The descendent of one of England's greatest admirals, and among the bravest of the brave at Alma, the hero ic valor of Sir Thomas Towbridge at Inkormann has become one of the glorioufacts of history. Those who record the great achievements of England's soldiers in the prosent war, will emblazon in the brightest colors of military story, how, when his still and courage in directing the fire of a battery had contributed to turn the tide of battle, and when a fatal cannon shot had carried away both his feet-the wound ed hero refused to be conveyed to the rear demanding of his fellow soldiers but to carry him to the front and raise him on a gun carriage, that, before bleeding to death he might witness the successful issue of the conflict; and then, cooly, in that position, continuing to direct the fire of his buttery until he shared in the final triumple and shouts of victory. Preserved by almost a miracle-his services crowned by every applause that a nation's gratitud. could bestow-his honors hallowed and enhanced by the tear of pity from his sovereign herself, while placing them upon his shattered frame, the noble soldier now reaps his final and greatest reward in the happy consummation of a long cherished attachment with the beautiful and amiable lady who is about to share his titles and honors while she consoles and repays his sufferings."

By Clothes Line Telegraph exclusively to the Daily News,
Council Chamber, Tuesday evening.

BROTHER CRANSTON :-

Our general meeting was hold this ev :ning pursuant to adjournment. Brother Garwood Burnett presented a bill for about \$26, for services as door-keeper; he was allowed \$10 for his services and \$3 for Comphene ; our Treasury is quite low. Brother James W. Curtis stated that the Council owed him two dallars and thome that in for the good of the cause. There were between forly and fifty of the brothers present; brother Curtis said that the merting had been pretty well advertised, as Cranston seemed to be recound, and knowd all that they were doing. Brother Parden W. Stevens jumped up and said yes, he thought there was a pretty strong delegation of Crauston's troops present to-night. More hereafter.

Yours fraternally,

SAM:

INVENTIVE GENIUS OF THE ACMERICANS Fow are aware of the marvelous triumphs constantly going forward in this country. A cotemporary says:

"We have seen lately, a specimen o rare American mechanical genius, a machine costing not over five hundred dollar invented by a working man, which take. hold of a sheet of brass, copper, or iron, and turns off complete hinges at the rate of a gross in ten minutes, hinges, too neate: than are made by any other process; als a machine that takes hold of an iron rec' and whips into perfect bit-pointed screw with a wonderful rapidity and by a single process. This is also the invention of a man; and both these machine are superior to anything of the kind in th world. No other process of manufacture can compete with them."

WAR .-- The following remarks by Vol tairs, will apply very well to the presen war in the Crimea :-

"A headred thousand mad anima!" whose heads are covered with hats, acvance to kill or be killed by a like numbof their fellow mortals covered with turbans By this strange procedure, they want 11. know whether a tract of land, to which. none of them has any slaim, shall belong | to a certain man whom they call Sultan, a to another whom they call Czar, neither ... whom ever sow or over will see the spot . . furiously contended for, and very few those creatures who thus mutually butche each other ever beheld the animal h whom they cut each others' throats !-From time immemorial this has been the way of mankind almost all over the earth. - . What an excess of madness this is ! athow deservedly might the Supremo Bein ernth to atoms this earthly ball, the bloody nese of such ridiculous murcorers !"

Hon. Justin Butterfield, formelry Conm salmer of the Land Office, under Ga-Taylor, and for many years one of the most prominent jurists in Illinois, died t Chicago a few days ago.

LATER FROM CALIFORNIA.

NEW YORK, Oct. 30. The steamer George Law, from Aspinwall, with the California mail of the 5th, arrived at her dock at 6 o'clock. She brings 550 passengers and \$1,670,000 in treasure. She connected at the Inflinus with the John L. Stephens, which brought down newrly \$1,900,000. The J. L. S. passed the Golden Gate on the 11th, and the Cortex on the 13th, both bound up. The news is unimportant.

· All the election returns were in, but not officially counted. All the Know Nothing ticket is elected. Johnson has over 5000 majority for Governor. Whole number of votes 90,000. The Legislature is composed of 72 Know Nothings, 39 Democrats, and 2 Whigs. The Know Nothing majority in the Senate is 4, in the Assembly 19. The prohibitory law is defeated by 6000 majority against it. Ex-Governor Foote, ex-Congressman Marshall and Bailie Peyton are spoken of among the Knew Nothings for Senators to succeed Gwin General Denver, Secretary of State, had left for the States to claim his sent in the House of Rapresentatives in the next Congress.

A party of 120 recruits left in the Uncle Sam to join Walker's expediton. Another party was to go from Nevada.

E Judge Norton had decided that the sale of the slip property made by the city in December, 1853, for \$1,000,000, was invalid.

A large fire had occurred in Jamestown, Loss \$75,000. The principal sufferers are Dr. Dodge, druggist; Messra. Donoven, Hefferman and Butterfield, merchants. The Masonic Hall consumed.

Advices from Oregon announce the safcty of Gov. Stevens. He with his party were at Fort Benjan at last accounts

Lieut. Buford, U. S. Army, arrived in St. Louis from Fort Laramie. He left that post on the 27th ultimo in company with Col. Cooke, who is ordered to the command of Fort Riley, and Col. Andrews, who may be expected in this city in a day

Cen. Harney was to leave Fort Laratine on the 29th to establish a military post on White Earth River, about half way between Laramie and Fort Pierce. Ten companies of troops-down of dragoons and six of infantry-were to accompany him. The infantry would be left to garrison the new post, and the dragoons are to return to Fort Lazamie. But another object in taking this large force into the field was to chastise the Minnecanjos Indians, who are regarded as the most insolent and hostile of the tribes in that region.

Shortly after the battle of Blue Water, Can Howard hold talks with the Oligatia and Brule bands of the Sioux, in which they agreed to give up the murderers of the mail party and to confine themselves to a prescribed district of country. Gen Harney sent word to Little Thund-

er, the chief of the party engaged in the battle of Blue Water, that if he behaved himself he should not be molested. It has been generally supposed that Little Thunder was killed in the battle of Blue Water, but this was not the case. He escaped unhurt. All the prisoners taken in that batt. --- some seventy avomen and children-have been sent to Fort Kearny.

It was the general impression at the fort that there would be no more fighting. The presence of so large an armed force seems to have had a most salmary effect upon the Indians, and they will be glad enough to keep quiet. There was a report that the Indians had attacked and killed the party of Sir George Gore, but this report is noticed only to discredit it. The rumor was not believed at Fort Laramie, and is improbable m its very nature-Sir George's company consisting of a large number of mountaineers, who could whip any Indian force likely to be brought against them.

The winter had set in with great severity at Fort Laramie; ico was formed about the middle of September. On the 5th of October a great snow storm wa by the party. It lasted for several hours. Col. Sumner, in command of seven com panies of the 1st U. S. cavalry, was med near Fort Kearney, en route for Fort Lara-

Several hundred men were at work a Fort Riley in the building of quarters for the large force now stationed there. It is presumed that they will be tenantable at an early day .- [St. Louis Republican.]

A SLANDER UPON THE PROFESSION. The Alabama "Skeeter" thus wickedly speaks of reporters for the press :-

"If you want to rejoice the internal soul of a reporter, tell him that six women and seven children have just been torn asunder, limb from limb, in a house around the next corner-that blood is gushing from all the windows and doors-that a steambont ha just ' bust' and killed all on board—that the Rev. Dr. Exegesis has cut his own throat -and that an awful and impenetrable mys. tery surrounds everything."

CURIOSITIES OF BIBLE LITERATURE .-- It is a curious fact that there are about 500 verses in Matthew's Gospel that are also a Mark's; more than three hundred verses in Lake, and about 130 that are also in the good of which it is capable, we believe Mothew. Nearly one-half of the George! it has done much to sprend knowledge, to by Marthaw is to be found in Mark, and quicken thought, and to ronder efficient aid more than one-third of the Gospel by Lake to the cause of popular education. -- Bos-I is to be found in Mark or Matthew. ton Transcript.

BY TELEGRAPH,

New Organs, October 29. The steamer Granada arrived here this evening from Havana. She reports that the steamer El Dorado arrived at Huyana on the 27th iest., from Aspinwall, with the California mails of the 5th inst., and passongers for this port, which were transferred to the Granada. The George Law left Aspinwall for New York on the 27th with 600 passengers, nearly \$3,000,000 in specie. and the California mails.

WASHINGTON, Oct. 26, 1855. Commodore Paulding arrived this morning, and is stopping at Willard's. There is not, I understand, any algoridence: in his being ordered here at this time. The Secretary of the Navy merely wished to consult with him in regard to matters in which he was particularly interested. The Commodore, it appears, is down on the action of the Naval Board. He asked one of the clerks of the Navy Department to give him a correct list of those now in the Navy. The clerk handed him a list taken from the HERALD, and remarked that he believed it was correct. The Commodore glanced his eye over the list, and before he had read the names seemed quite indignant, and said that there were at least three out of ten, who, from his personal knowledge, were not fit to be in the service, and intimated that the action of the Naval Board could not and aught not to be sustained.

Boston, Oct. 25 .- The National Agricultural Show to day was successful beyond all expectations. The number present is estimated at from 60,000 to 100,000. Receipts over \$20,000. A great many could not get in on account of the inability of the ticket-bearer to take their tickets. The exhibition commenced with a grand cavalcade of truckmen. Then came the exhibition of the various classes of horsesamong them the blood horses Logan, Fashion and Matchless, and also an exhibition of splendid blood stock.

In the afternoon there was a trot is which eight horses took part, for a purse of \$200 and \$100.-Genesee, a New York horse, won the first prize, and Kato Miller the second-best 3 in 5. Genesee won the first two and fourth heats. Time-2:37 1 2, 2:38, 3:39 1-2, 2:40, 2:42 1-2 When the last heat came off, Win, Woodruff, driver of " Young America," broke his rein, and the horse dashed against the rail and into the crowd, throwing his driver and smashing the gig. He ran some distance down the course, but was finally cuptured without serious harm to any one.

> THE Rising ason. The muon is up ! How calm and slow She wheels almve the hill ! The weary winds forget to blow, And all the world lies still.

The way-worn travellers, with delight The rising brightness see, Revenling all the paths and plains, And gilding every tree.

It glistens where the harrying stream Ita little ripple leaves ; It falls upon the forest shade, And sparkles on the leaves.

So once on Judah's evening hills The heavenly lastre spread; The gospel sounded from the blaze, And shepherds gazed with dread.

And still that light upon the world Its gliding splendor throws; Bright in the opening hours of life. But brighter at the clear.

The wanning moon in time shall fail To walk the midnight skies; But God hath kindled THIS bright light Wich fire that never dies.

POPULAR LECTURES. - It is quite evident that the lecture system, instead of fallling into disrepute, or being displaced by new methods of instruction or culture, as has so often been predicted, was never so univeraily adopted as at present.—Every or villiage of any sort of enterprise or pretensions, has its annual course of popular lectures, while the cities support several courses. The lectures of established reputations find that the West is the most lucrative field for their operations. The lecture committees of the places on the line of some of the great railways in the West manage to unite in sending invitations to our castern lectures, and arange matters so that a number of lectures can be given within a week or two, without subjecting the speaker to much faligue from travelling To show the demand for lecturers this season we will state that some of our friends who engage in the service, have already received upwards of a hundred invitations to lecture; others have received from fifty to seventy application to address lycenms and literary institutions this winter. The courses of lectures in this vicinity usually begin soon after the State election. In some small places, however, where the remuneration is small, and lecturers decline to speak during the period that they have more lucrative engagements, the lectures commence to October. The lecture system is a potent agency in society. While it has not yet accomplished all

HOLLOWAY'S PILLS.

WILY ARE WE SICK?

WHY ARE WE SICK?

It has been the lot of the human race to be welch ad down by disease and suffering. HOLLIN WAY'S PILLS are successful outputed to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holleway personnelly superintradition manufacture of his medicines, and constitution manufacture of his medicines for the finite little states, and offers them to a free and enlightened people as the best remedy the world were saw for the removal of disease.

Those kamous Pills are expressly combined to operate on the stomach, the fiver the kines, the longs, the skin, and the bowels, Correcting any derangement in their functions, porting disease in all its forms.

Nearly had the human race have taken these Pills It has been proved in all parts of the world, that nothing heat een found quad to them in eachs of disorders of the liver, dyspeptle, and stomach combining agencially. They soon give a healthy tone to litease organs, however much deranged, and when all atters means have falled.

Many of the most despotic Governments have on the mention of them of the means have falled.

Many of the most despotic Governments have on the microaction of the care fully. The distinct of the means of them and the mentions of them were the system than than the of the means. Learned Colleges after medicine of the means, young or old, should be without the mountily courses at all parinds, noting in many case in the action. It is also the best and regulates the mountily courses at all parinds, noting in many case in the action. It is also the best and regulates the mountily courses at all parinds, noting in many case in the action. It is also the best and regulates the mountily courses at all parinds, noting in many case in the action. It is also the best and regulates the mountily courses at all parinds, noting in many case in the action of the case of the constitution of the case of the constitution of the case of the constitution of the case of the constitutio

PROFESSOR WOOD'S
HAIR RESTORATIVE
Is, no doubt, the most wonderful discovery of
this age of progress. The following is from
a distinguished member of the medical profes-

I this age of progress. The fotlowing is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

Prof. O. J. Wood, Dear Sir—Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the high restoratives extant, and having tried all the high restoratives extant, and having tried all the high restoratives extant, and having a rich all the nary, I was induced on hearing of yours, to give it a trial. I placed mysulf in the hunds of a barber, and had my head well robbed with a good stiff-treals, and the Keeturstrey them applied and well rubbed in, till the scalp was all a glow. This I repeated every moment, and in convenient of the rough, and the research time, and is now thick, black, and storage and it are the rough, what fittle there was of trand that lit le was disappearing rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect crop of hair. Novell have real of thege things—and who has not I—but have haven seen hitherto, any case in which may person's hair was really benefitted by any of the hair tonica, &c., of the day; and it really gives as plucaure to record the result of my experience. I have recome sended your preparation to others, and it should have confidence in it. All who have used it here, will coincide with me in what I have writing. The supply you cont us, as the wholestle agents for the Paritory, is alteredy exhausted, and daily inquiries are unade for it. You deserve credit in your discovery. I for one return you thanks for the benefit it has done me, for I certainty had despaired long age, of ever effecting such result. I congestulate you that your betune (and a large one) is already made.

Very Booth and Skelbog, Druggiste, St. Paul, W. T.

Firm of Bond & Kellog, Druggists, St. Pm (W. T. Firm of Bond, a newey, program, (W. T. Brookfield, Blass., Jan'y 12th, 1865.

Prof. Wood,—Bear Sir,—Having made a trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff, and a constant itching, with which I have been troubled, from chelthood, and has also restored liar which was becoming gray, to its original, color. I have used an other article with anything like the always are and profit.

I have used no other article with anything like the pleasure and prefit.

Yours truly,
J. K. BRAGG,

SOAP! SOAP!!

A tile highly celebrated American Cream, American Loundry, American Manufactorers' Soap, and Gream Soap properation. These soaps are presented to the public with the follest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recurrengulations. A fair trial is all light. These soans do the work of the SOAP | SOAP !! all I isk. These soaps do the work of the Laundry in the bestmanner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pennding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to

take the chill off the water-The tendency of these soaps is to sotten the clothes and loosen the hold of the dirt, without

clother and loosen the hold of the dirt, windin-ingury.

Directions for use.—White Clothes— Rub the coup treety x all saided spate, backers strong such in water, sufficient to cover, sank a few hours, or all night if convenient, when with a common hand rishing and thorough rining, they will be perfectly clean and beautifully theached. Culicoes and other colored articies,

without southing and rinse.
Woodens—Wash in warm suds (to prevent

shrinking) and riose. Merinoes, Silk Velvets, Silks, Riblians, &c

Merinoes, Silk Vervets, orms, and was instrong suds and ruse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clathing, rub the sum on freely, sook some time in strong ends, rub out and riuse. Ink spots and stone, use full strength, sook, and week in

hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the parameter of the control to the

For all other purposes, use as you do the common bar son, and you will be compelled to admit that it surpasses all other scaps. Manufactured and for sale wholesale and retail, by C. G. HANDY,

SPRATT'S LIGHTNING RODS!

WITH branched and other poits unide of pure copper and gilded with fine gold, a of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious initation made of Cast Iron, and cold last year by some dealers in Laybning Rods.

lean, and sold hast year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable inprovement in applying Insulators by which the glass is kept dry, causist no leaks in roofs of building, and effectually preventing the Electrical Fluid from being conducted by iron series and drives into the seen.

The following recommendations have been furnished grantitusity. Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnaid, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rude may become general as an important maxiliary deleace against a danger which must be regarded as of an ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr. Pref. of Chous in the Univ. of Louisville.

B. SHAIMAN, Jr.

Prof. of Chem. in the Univ. of Louisville.

Prof. of Chem. in the Univ. of Louisville:

This will certify that I have examined the Lightning Roda, Metallic Points, and Insulating Attendments, monolactured by Mr. Sprint, of Chinchmatt, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper. Brunched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to correde them.
